

# MAKSYMILIAN POMORZEWSKI

Full-Stack Developer | Master's in Web Engineering

Full-stack developer specialized in designing robust backend architectures (Symfony, PHP, NestJS, AdonisJS) and modern interfaces (Next.js, React, Vue.js). Experienced in application security and legacy system migration.

## PROFESSIONAL EXPERIENCE

### Full-Stack Developer (Apprenticeship)

AB6 - Astagia Choisy-le-Roi | 2023 - 2026

HDS-certified collaborative medico-social platform

- Migrated authentication system from Zend Framework to Symfony, modernizing the login flow
- Implemented multi-factor authentication (SMS, email, TOTP) and hardened application security
- Designed and deployed a secure electronic signature system (DocuSign-like workflow)
- Built user data export module for regulatory compliance and reporting
- Managed back-office administration of the collaborative medico-social platform

Zend Symfony MySQL Docker JWT TOTP

### Full-Stack Developer (Internship)

Fairy Tale Vending Paris | Jan - Mars 2023

- Developed a complete e-commerce website

### Full-Stack Developer (Internship)

Municipality of Oswiecim Poland | Mai - Juin 2022

- Developed the municipal website (PHP, HTML, CSS)

## EDUCATION

### Master's in Web Engineering

ESGI, Paris

2024 - 2026

### Bachelor's in Computer Science

CNAM

2023 - 2024

### BTS SIO option SLAM

Lycee Polyvalent de Cachan

2021 - 2023

### Bac STI2D - With Honors

Lycee Jean Mace

2018 - 2021

## PROJECTS

### PitchPlay

NestJS Next.js Swarm

Football prediction app with Fantasy League & social features

### JobLink

Vue.js AdonisJS

Marketplace connecting freelancers with clients worldwide

### MyStream

Next.js SQLite Docker

Personal streaming app with integrated player, CDN & watch tracker

### Matchroom

Next.js AdonisJS

Hotel room comparison platform built during a Hackathon

### Hackathon Steto

Angular Spring Boot

Built a real-time messaging application

### Nest Tournament

NestJS TypeScript

RESTful esports tournament API with brackets & rankings

### Gym API

TypeScript REST

Fitness API for workout tracking and progress analytics
